SUMMARY

Experienced frontend developer with a strong track record of building responsive web and mobile applications. Proficient in HTML, CSS, JavaScript, and various frameworks. Committed to delivering user-friendly and visually appealing digital solutions.

EXPERIENCE

Frontend Developer | Envisio Live | Accra, Ghana | January 2023 - Present

- Developed web and frontend applications for clients across various industries with a team of three other developers.
- Refactored the frontend of Fichi, a realtime application used by startups in the airline industry to track booking involving fauna. Created a new design pattern for the team to adopt.
- Led a team to port a mobile application for tierpass, a live animal identity suite used by startups in the airline industry, from native builds to React Native.
- While working at Envisio, I've actively used React, React Native, Next.js, Tailwind CSS, Typescript, Postgresql, Prisma, Docker and a lot of other modern application stacks.

Frontend Developer | Smatpet Logistics | Tver, Russia | September 2019 - December 2022

- Contributed to the design and development of a robust freight forwarding application for live animal logistics, ensuring high quality user experience for thousands of enterprise users.
- Created an analytics dashboard to visualize key metrics on user behavior and user journey, which allowed the team to iterate towards a better user experience.
- My tech stack included HTML, CSS, JavaScript, Ajax, jQuery and React.

Quality Assurance Specialist | Blue Skies | Nsawam, Ghana | September 2018 - September 2019

- Led the implementation of an in-process quality control process that improved the accuracy of the product to 97% from 85%.
- Designed, developed, and executed comprehensive test plans from scratch, including functional, regression, and performance testing, to identify and rectify defects and improve product reliability.
- Streamlined testing processes using automation tools and frameworks, reducing human error and accelerating testing cycles, reducing costs and time to market.
- Documented, executed, and tracked all aspects of test cases to meet company-wide audit requirements.

EDUCATION

Bsc, Agricultural Biotechnology | Kwame Nkrumah University of Science and Technology | Kumasi, Ghana | 2018

INVOLVEMENT

Project Manager | Mumbai | AIESEC in INDIA | June 2017 - August 2017

- Built software that aided AIESEC in their mission to achieve poverty alleviation in the world by 2040.
